- The response in terms of engagement and views for this format has been highly promising, and we have plans to further enrich the experience

Growth Plans | Our aim is to grow Onside to help it become the number 1 Sports Podcast on the continent, and we have clear strategic plans to achieve this

Four key Strategic Drivers For Growth

1

Africa Expansion

- Featuring football legends in different parts of Africa will boost engagement – Betway Ambassadors are low-hanging fruit
- Collaboration with the Betway Africa head is essential to coordinate these interviews effectively

2

Interview Format

- Conducting interviews with passionate football enthusiasts, as demonstrated by the successful Gavin Hunt interview, has been effective
- We plan to maintain a more frequent schedule for interview formats

3

Live Watchalongs

- We've experienced the highest engagement and views when there is a watch-along of a major game within the month
- This format will be crucial in driving the growth of the platform and maximizing reach.

4

Events*

- Host or broadcast from off-site locations during major sporting events
- Goal: Bring the show to a broader audience
- The team requires provision of branding materials and potential funding where OnsideZA hosts the events in some instances

5

Marketing

- Post Match Reactions (Social Media)
- Short form content (Tik Tok as main driver)
- OnsideZA sponsored content ads (Social Media)
- Outdoor Billboards

Growth Plans | The Podcast and Chill Network wields a significant cultural influence, with hosts who play a major role in shaping the local urban culture
